Are You a "Procrastinator?"

About Your Clothes—And About Nothing Else? :

The "wait-a-while" policy is not good in your business. It's not good in your social affairs. You are not a "procrastinator" in any affair which you consider important.

Why are you in the matter of buying your clothes?

Why defer the matter until all other things have been attended to? Is it because you think the other things more important? Or—WHY is it? Think it over—and then get interested today.

Bradford railroad station to his home here. It is understood that his con-
dition is serious. He appeared to be helpless during the transfer from the train to the ambulance.

Although Justice Moody's ailment was announced as a case of rheuma-
tism and gout, local physicians who have known him for years, believe it to be more serious.

Justice Moody came here, it is un-
derstood, from a sanitarium in New York state, where he has been for several weeks from a short stay at Hot Springs, Ark. No intimation of his indisposition had been received here previously.

It is not yet quite in shape, but he says the general idea is feasible. Ger-
man doctors, he says, have declared that "up in the air" treatment is the most successful method of curing tu-
berculosis.
